

"On earth there is no heaven, but there are pieces of it."

Jules Renard

seeds of hope

Peacehaven
Community Farm

Over the past three years, hundreds of volunteers have rolled up their sleeves and gotten their hands dirty in an effort to create a sustainable farm that is a place of destination for both those with disabilities and the community at large. The seeds of hope that gave birth to Peacehaven Community Farm were the children of the farm's founders. As parents of children with special needs they know the joys, the heartaches, the quest to "fix", and the awe and wonderment of having someone they love with disabilities become all they are meant to be.

But we are not just growing vegetables at Peacehaven—we are growing relationships and building a community that will sustain this farm for generations. In our first growing season, our friends and neighbors contributed over 5,000 volunteer hours. *It is this generous support that gives Peacehaven life and meaning.*

As our volunteers work together they are building the relationships and sense of community that so many disabled individuals miss and need while simultaneously creating a sustainable farm that serves our community in a variety of ways.

Support Peacehaven and join us in planting seeds of hope!

It is our ultimate vision to develop the farm to be an affordable housing community where adults with intellectual and physical disabilities can live independently within the embrace of the community around them. Peacehaven is a very ambitious and unique project and we need you to help us plant and nourish these seeds of hope.

Peacehaven has been blessed by special gifts at its founding that allowed us to start the dream of sustainable farming, we now turn to you to help us cultivate and grow our crops, our livestock and most importantly, our community of unique relationships. Gifts to the Seeds of Hope campaign range from \$5 to more than \$5,000, and all gifts help us to maintain the operations of the farm and provide unique opportunities for people of all ages and abilities.

\$52

feeds the animals for a week
or buys 12 pairs of gloves for volunteers

\$244

buys seeds and other planting materials for fall
or spring produce

\$512

helps Peacehaven deliver produce to local food pantries
for the growing season

\$619

re-gravels our farm road

\$989

provides materials for 10 wooden, handicapped accessible
raised beds for the 2012 growing season

\$2490

provides a weekly program through the growing season for
a local group home or school

\$5200

buys a utility vehicle ("gator") for transporting folks with
physical challenges around farm or other equipment
